

Balloon Tower

Construct the highest tower possible using only balloons!

This short but powerful activity is a fantastic way to energise your team at any stage of your day. Teams' natural competitiveness will come to the fore as they try to build the highest tower, while keeping a watchful eye on how the other teams are faring.

How it Works

Issued with colourful modelling balloons and pumps, each team is to construct a tower as high as the ceiling using only the balloons. With a time limit of 20 minutes there is frantic fun learning how to join balloons together, but the teams must use their skills, imagination and ingenuity to design and construct a tower that can stay upright for long enough to be scored!

The End Results

- 6 Highlights working to deadlines
- 6 Promotes delegation amongst teams
- 6 Creates healthy competition between teams
- 6 Creates fun and energy!

What's Included

- ✓ Balloons
- ✓ Pumps
- ✓ Fantastic as an energiser or ice-breaker
