

Boomwhackers

Create harmony in your team!

This musical extravaganza will have your whole team playing to the same beat. Incredible sounds and synergies are created as delegates work together to create music by banging these vibrant tubes on the floor, table or against one another.

How it Works

Each participant will be issued with their own boomwhacker, easily one of the most accessible instruments made. Through a series of fun call and response style sessions the team will quickly learn a number of different rhythms that will have them playing together as one in this lively percussion session.

The End Results

- 6 Gets your team working as one
- 6 Creates a sense of achievement
- 6 Creates a talking point
- 6 Energises!
