

Rhythm Rocks

Rhythm Rocks provides every single participant with an audio-visual spectacle of extraordinary proportions.

Using authentic Brazilian instruments, participants experience the passion, energy and rhythms associated with South American music. There is no better event to demonstrate the value of creativity, teamwork and cooperation within your workforce.

How it Works

Participants work together to develop team cohesion through drumming and rhythm. In different workshops, participants first learn how to use a variety of drums and percussion instruments such as surdos, shakers and agogo bells. The group then comes together to layer the sounds in a spectacular and exhilarating finale.

The End Results

- 6 Allows mass participation
- 6 Everyone CAN do it!
