School Races

Head back to school with all the fun of sports day!

School Races is a great way to get your team out of the office and into a world of nostalgia! With a mix of races and giant games there is something for everyone in this trip down memory lane.

How it Works

Your group will be split into school houses and challenged to win as many points as possible. From a sack race to the egg and spoon, teams put forward their best candidate for each race. With games to keep the rest of the class entertained and a Head Master to lead the day there will be no teenage moans and groans. Ask your guests to come in costume and include a BBQ and beers to make your corporate School Race even better than your schoolday memories!
