

Team Top Trumps

The classic game with a modern twist!

Acting as a tool to get teams talking, this energiser breaks down barriers and helps even the most established team find out something new about their colleagues.

How it Works

Each team becomes the deck of cards and as such must put forward their best "card" in each category. Each team's collective wisdom, experience and personality is used to try and trump the other teams so whether it's "Who has climbed the highest mountain?" or "Who has the best party trick?" this fast and fun event will have your team in stitches. Led by a compere, this fun and informal team game will let your team become the entertainment.

The End Results

- 6 Improves communication
